FUN FACT

It's located in Arizona, but it's the Colorado River that gives this spot the shape that inspired its name.

It's a popular spot for rafting and hiking, and the views from the cliffs above it are awe-inspiring.

FUN FACT

Running for nearly 4,000 miles through South America, this body of water discharges so much rainwater into the Atlantic that the ocean is less salty for 100 miles off the coast. It's home to plenty of piranhas, so watch your toes!
